Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.
2. If this is not true, please address it in your response.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
5. In claim 4, "the closed end of the cyclone body" lacks antecedent basis. It is not clear if applicant meant to have claim 4 depend from claim 1 or claims 2 or 3.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 1744

7. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by European patent application to Royal Appliance (cited in I.D.S.).

8. Royal Appliance discloses an upright type vacuum cleaner comprising an upper dust chamber B, a lower motor driving chamber C, a cyclone body H mounted in an upper portion of the dust chamber, a dust barrel removably mounted to a lower side of the cyclone body, a suction brush 36 mounted on a lower portion of the cleaner body and a fine dust filtering means F removably disposed in the air outflow path. Royal Appliance also discloses a handle 96 formed on a sidewall of the dust barrel.

Allowable Subject Matter

9. Claims 2, 3, 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

10. Claim 4, as best understood, would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

11. Claims 8-12 are allowed.

12. The following is an examiner's statement of reasons for allowance: With respect to claim 8, the prior art does not disclose nor render obvious the claimed combination, particularly the head portion including a grille extending toward a closed end of the cover, the closed end of the cover having a spiral surface forming a contaminant discharge port. Although the prior art

Art Unit: 1744

discloses the claimed parts, to put these parts together would not have been obvious to a person having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

13. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Davis et al., Yonkers, LG Electronics and Oh show the current state of the art. The patent to Oh is cited as the disclosed/claimed subject matter is very similar.
